No. 25

## Water Companies Must Pay Expense

Railroad Commission Calls Halt On Time-Worn Holdup Custom.

The Railroad Commission has rendered a decision in which it reiterates and establishes as a principle the rule that water companies must themselves bear the expense of service connections and of meters and shall not impose these obligations upon their patrons. The Commission decided that water companies are entitled to rates which shall yield them an adequate return upon their investment, but that they shall not require their consumers to provide a portion of that investment represented by service connections and meters.

The Commission has at different times expressed the principle in its decisions, but in a ruling just rendered it sets down the principle in definite form as a guide to the water companies of the state. The ruling was made in two complaints which were consolidated for hearing. These were the complaints of the city of Glendale against the Title Guarantee & Trust Company, trustee for the Glendale Consolidated Water Company and the city of Glendale vs. the Miradero Water Company.

The commission reviews the decisions of the Supreme Court of the United States and other bodies upon the points involved and concludes finally that their service connections and meters are part of the water system which must be built by the companies themselves.

The plea of the water companies that they possessed insufficient revenues to make the service connections and to install the meters was dismissed by the Commission with the statement that they were entitled to fair rates upon their property and if they were not now securing fair rates, their remedy lay in an application to the proper authority for such rates as would provide a reasonable return upon their investment.

### Tunnel Suit Will Be Filed.

It is expected that final action will be taken by the city council at its meeting this evening to instruct City Attorney Hall in his plans for the filing of a number of suits against property owners whose holding are desired by the municipality for the proposed tunnel to the outer harbor. The principal defendant will be the Santa Fe railroad company though a number of other property owners will be named.

### Surveying New Line.

Reports come from San Diego and Imperial counties that the Santa Fe railway is surveying a new route direct from Los Angeles to Imperial county. The line will run through San Felipe pass to El Centro. An extension of the Temecula branch by way of San Luis Rey valley to the heart of Imperial Valley will develop one of the most productive sections of the country. The road will soon be finished from Oceanside to San Luis Rey mission. The Southern Pacific will haul 3000 carloads of cantaloupes out of Imperial Valley this season. The average shipment of other products out of the valley per day, the year round, is 25 carloads.

### W. C. T. U. Annual Convention.

The twenty-eighth annual convention of the Woman's Christian Temperance Union was held in Wesley M. E. church June 19 and 20. County President Alice Dickinson of Vine Hill presided during the meeting and two new Unions were introduced, Pinole and Bay Point. A feature of the first day's business was an address by Mrs. J. L. Nicholl of Richmond on the subject of "Training for Citizenship" and a discussion led by Rev. Van Dyke Todd, "How we can make our schools better."

The Richmond Terminal is receiving scores of subscriptions from the workmen. There's a reason for this.

## Richmond's Building Campaign Still On

Never Will Let Up Notwithstanding "Alarming Predictions" By Pessimists.

One of the most substantial business buildings in Richmond is that of C. G. Blake's, on Seventh near Macdonald. Mr. Blake has invested \$5000 of Santa Clara county coin in this building, proving that he has faith in the future of Richmond. J. B. Ogborn, the architect, made the plans, and Bob White is the contractor. The first floor is for storerooms and the upper floors for flats.

### LITTLE CERRITO HILL NOTES.

J. R. Nystrom has been called home from Washington on account of the serious illness of Mrs. Nystrom.

The Dooling homestead, half a century old, in harbor center tract, has disappeared to give way to modern improvements.

Thirteenth and Virginia are improved, and many attractive homes grace those streets. Florida will also be an attractive residence thoroughfare.

H. L. Penry, the contractor, who lives near Ohio on 14th, has been instrumental in securing many improvements in that locality. Penry and Sroufe were about the only "settlers" five or six years ago.

Paul Claser, the well known contractor, has a beautiful home at 13th and Florida. He has just completed a 10-room flat in that locality that for superior workmanship cannot be outclassed around the bay. He is a first-class carpenter, and employs the best material in his buildings.

### PERSONAL AND LOCAL.

An important meeting of the bartender's union is being held this afternoon.

A group of excursionists from Santa Cruz are expected in Richmond Sunday.

The Brotherhood of American Voeman will hold a social meeting in Castle hall Thursday evening, June 26.

Mrs. Caroline Rogerson of 333 5th street is expected home tomorrow from Los Angeles and Santa Monica.

The Contra Costa Temple of Pythian Sisters will hold a whist party and dance in Pythian Castle tomorrow evening.

G. W. Hellings, Esq., and Mrs. Hellings of Tampa, Florida, were in Richmond this week looking over business investments.

Oakland city council has passed resolutions asking the Pacific Gas & Electric Co. and its former employees, now on a strike, to arbitrate their differences.

Postmaster Jenkins announces that the mail boxes for the rural routes will be established July 1. The districts to be served are Stege and San Pablo.

The Oakland & Antioch railroad has asked the railroad commission for permission to issue an additional \$1,000,000 of 5 per cent bonds. This issue will be used for the completion of the road from Bay Point to Sacramento.

Councilman E. J. Garrard at a meeting of the Point Richmond Commercial Club Wednesday evening was unanimously elected the club's president. Mr. Garrard is one of the live boosters of the west side.

Geo. W. Fitch of the Oakland Ad Club with headquarters at the big hotel Oakland, is a "live wire" and makes a hit on improved methods of ad business and excites risibilities of guests in entertainment programs.

Admission Day headquarters for 1913, where will be the reception of all parlor in California under the general direction of Congressman Joseph R. Knowland as general committee chairman for the Native Sons of the Golden West, will be in the Merchants Exchange building San Francisco.

## City Briefs.

Mrs. J. Curtin is visiting in Monte Rio.

J. Reposa, Santa Fe engineer, has moved to Riverbank.

J. Peterson and family are touring the southern part of the state.

Mr. and Mrs. Frank Higgins of Madera are visiting friends in Richmond.

Dr. A. R. Vogelmann of Modesto has established a dental office in Richmond.

The new Anderson business building at Point Richmond is nearing completion.

Fred Heckman hitches his horse to a goose—not a webfooted one, but a tailor's "goose."

The Holy Ghost society of San Pablo will hold their annual dance in Maple Hall June 28 and 29.

Mrs. Chas. Dungan of Sacramento is the guest of her aunt, Mrs. I. C. Horner, in this city.

Richmond Temple No. 86, Pythian Sisters, entertained at whist last night at Fythian Castle.

Martin Lapierre has purchased a fine lot in Wall's Addition to the city of Richmond and will improve it.

No clew has been found as to the yeggmen who blew the safe in the new Ludwig market near 23d street.

Mrs. H. H. Turley and family will spend a month at their Sonoma country home. They left for Cazadero today.

The Eagles military ball to be given tomorrow night at East Shore park is scheduled to be the attraction of the month.

The Southern Pacific company has installed a large electric bell at the crossing of Cutting boulevard and Pullman avenue.

J. B. Ogborn made the plans for the Williams residence in San Mateo, one of the attractive residence sections of the peninsula.

City Tax Collector Marshall and county deputy Geo. F. Scott are making the rounds and taking the money from the "slow ones."

El Cerrito Camp of Modern Woodmen are contemplating organizing a band. W. H. Wilcox and George Bigard are the promoters.

There were 72 applications made at the last meeting of the city council for renewals of liquor licenses which will expire this month.

Mrs. C. F. Donnelly, who attended the grand session of the Pythian Sisters at San Diego, returned Monday on the steamer Harvard.

The wedding of George B. Lindsey of Victoria has been announced through cards received by Richmond friends. He is the son of Judge Lindsey of this city.

E. A. Prizer and daughter, Miss Marjorie Prizer of Merced are visiting Mr. and Mrs. Geo. W. Ryan. Mr. Prizer is connected with the Merced Investment Co.

Property owners in the north-eastern part of the city are clamoring for street improvements. The city council promises to give this section of the city their immediate attention.

E. Heidorn, the well known cigar manufacturer, has established a factory at 820 Macdonald avenue. He makes high grade smokes, and the boxes bear the blue label, familiar to all union men.

The skating rink attraction is proving such a money maker in Richmond that Oakland amusement promoters contemplate installing a permanent rink on Macdonald avenue between Eighth and Ninth.

Mrs. C. L. Cook of Monterey is visiting in Richmond this week, dividing her time between this city and San Francisco, where she is attending to some legal business in connection with her property holdings in the old capital of California. Mrs. Cook is owner of some of the most valuable real estate in the historic town, and is building a beautiful home among the fragrant pines of Pacific Grove.

## Albany Celebration To Be Grand Affair

Fourth of July Preparations Are Most Elaborate of Any Bay City.

Special to The Richmond Terminal.

ALBANY, Cal., June 20.—The Fourth of July committees on celebration have completed arrangements for the big national holiday, and the amusement features and unique parade will be a revelation in this line of attractions.

Some of Uncle Sam's public servants high up in affairs of government pertaining to harbor improvements will speak.

The improvement clubs and city trustees are working diligently and in harmony to make Albany the center of attraction on the Fourth and every day of the year.

### Albany Notes.

A campaign is on against the goat.

Judge Paul who has been on the sick list is recovering.

U. S. navy officers are buying homesites in Albany.

Tea will be served at the home of Mrs. R. L. Davis this evening.

Misses Lillian and Edna Lindquist have gone to San Lorenzo for the summer.

Miss Queenie Evatt of Albany is soon to become the bride of Charles Schwacke.

Twelve new members were received into the Improvement Club at its last meeting.

Assemblyman George Gelder will speak next Thursday night in Albany on the proposed naval base.

Mr. and Mrs. R. C. Finch have returned to Albany from Tulare and will make this city their future home.

Rev. W. E. Coffman of Albany M. E. church is doing good work. The church and Sunday-school are gaining steadily.

Big Cerrito hill in Albany overlooks the proposed naval base and the most beautiful marine view on the coast.

The city let the contract for building cement sidewalks for delinquents at 19c. Only one bid was submitted.

Mrs. G. W. Ryan entertained the members of the sewing club at her home at 725 Talbot avenue Tuesday afternoon.

Albany's baseball team is trimming all the topnotchers. The Call's club and the invincible Melrose slabsters were the last victims.

Miss Sue Irwin and Miss Helen Lacey of the Albany school faculty have registered for the summer session in the University of California.

The contract has been let to light the four main blocks of the city and a big electric light of welcome will be placed at San Pablo and Main.

Mrs. George Burns was hostess at gentlemen's night in the sewing club recently, entertaining her guests at progressive whist. The handsome hand-painted pillow was won by Mrs. Frank Eaton.

### Governor Signed Tideland Bill.

Governor Johnson has signed the tideland bill granting Berkeley the tide and submerged land abutting that city, granting permission to build municipal wharves and to assume general control and management. The conditions are that the city must make their improvements within five years. If bonds to the amount of \$500,000 are not issued and improvements made within five years, the land shall revert to the state.

### County School Funds.

Contra Costa county has 4464 school children. There are 56 districts and \$23,409.20 to be apportioned, which allows a per capita of \$5.30 for each pupil attending school. Richmond district has an attendance of 1263 and receives \$6693.90 for its apportionment. Pittsburg comes next with an attendance of 479 and an allowance of \$2538.70.

## First Reading of New Picketing Law

Ordinance Comes Up Next Monday Night For Its Second Reading.

The picket ordinance which has been hanging fire for so many weeks, introduced by Councilman Follett, came up for its first reading Monday night. The ordinance as it now reads provides for a fine of not to exceed \$500 and imprisonment, the limit of the latter not specified, and makes picketing a misdemeanor. Much interest is manifested in labor circles, and by the citizens, in the vote that will be registered next Monday night when this "delicate" piece of legislation comes up before the council.

City Tax Collector Marshall filed his May report, fees, licenses, etc., collected totaling \$5036.72.

G. W. Cushing submitted a bid on the sub main sewer on Richmond avenue and other streets of \$13,413.56, and was awarded the contract.

The Virginia street bids were laid over. The 12th street bid (Ohio to Cutting) submitted by Page, Galbraith, Charles, Rogers and Rutherford, laid over one week.

Page was granted an extension of 90 days on the work on 14th from Ohio to Cutting.

Councilman Follett reported progress in regard to permit to use poles of public service corporations by city.

Laundry ordinance becomes a law in 60 days.

Bids were ordered to be opened June 30 on work on Roosevelt ave. from 23d to Tenth. Also on Espee ave., its full length, and on Ohio street from 10th to 16th.

Bills to the amount of \$875 were allowed and ordered paid.

### COUNTY NEWS.

Charles Curry of Portland, Ore., was here Thursday for a brief visit with his brother, H. J. Curry. The traveler had just returned from the east and after visiting with relatives a few days in Richmond will return to his home in Portland.—Martinez Gazette.

San Roman Valley hay is selling from \$18 to \$20 per ton. Three tons to the acre is the average.

The state encampment of the Spanish War veterans will be held Martinez in May, 1914.

Demonstrations made by the American Oriental Oil Co. in Martinez proved that gasoline could be obtained from the crude product at one half its present cost. This means activity in automobile sales.

The pumping station at Bay Point which was consumed in the recent disastrous fire of that town is being rebuilt and the water famine will soon be broken. The citizens, some 700, have had only four wells for the entire supply of the city.

### Butte's Bumper Crop.

Butte County is not complaining of a dry year nor a scarcity of the coin of the realm, as the orchardists and gardeners have a bumper crop on hand to garner. The hay crop is so heavy that machines cannot be secured for harvesting, and help is hard to secure. Butte county oranges are from three to six weeks ahead of the Los Angeles product each year, and from present indications this county will take the majority of premiums at the October Land Show to be held in San Francisco.

### TO ADVERTISERS.

There are employed in Richmond 3000 organized workers. This newspaper was the only organ in Richmond that supported the "7000" club union candidates. The Terminal in consequence will continue to prosper and grow, for the workman is a consumer as well as a producer and distributor of his earnings. He naturally will patronize the paper that stands by him in his struggle for better conditions. The Terminal is the workman's friend, and its advertisers will surely reap the benefits of publicity placed in its columns. The Terminal is the oldest newspaper in Richmond, was the first to carry the allied printing trades label at its masthead. Merchants need no instructions in placing their publicity where it will be effective.

## Richmond's Industries — Number of Men Employed.

In answer to numerous inquiries as to the number of manufacturing industries and the number of men employed, The Terminal herewith publishes a list for the benefit of its readers and those who may be interested in Richmond's development. Richmond has 34 manufacturing, 8 of which employ (March 1, 1913) 4365 men, classified as follows:

	No. of Men Employed
Standard Oil Co.	2400
Pullman Shops	750
Santa Fe Shops	600
Western Pipe Works	175
California Vine Association	165
San Francisco Quarries	100
Pacific Portland Works	100
Pacific Sanitary Mfg. Co.	75

Total.....4365  
Besides the above there are 26 smaller manufacturing industries in Richmond such as brick works, cap and match factories, etc., employing 850 men and women. These figures are conservative and not given for advertising purposes. They are taken from statistics gathered by the Western States Gas & Electric Co., by request of their main headquarters at Chicago.

The assessed valuation of Richmond property is \$12,333,352.10. Bonded indebtedness, \$300,000, for harbor improvements. Number of building permits for 1912 were 902, value \$800,000.

The Terminal circulates among the industrial classes. They patronize merchants who advertise in the Terminal.

## MINOR NEWS NOTES OF THE WEEK

### Brief Mention of Interesting Events From All Parts of the Globe

#### Doings and Happenings That Mark World's Progress—Personal, Political, Historical

New York—Mayor Gaynor, in a statement issued during the week, signified his willingness to be a candidate for re-election.

Washington—Cornelius J. Ford of New Jersey, a labor leader, has been nominated by President Wilson to be public printer.

Berlin—The next Olympic games are still three years away, but the great stadium where the contests will be held was dedicated last week.

Regina, Sask.—The main building of the Regina Exhibition Association, the grand stand and several small buildings have been destroyed by fire. The loss is \$150,000.

Salt Lake City—Twelve hundred men employed on railroad construction work at Tucker, Utah, went on strike for an increase of 25 cents a day and better working conditions.

Constantinople—Mahmoud Scheftel Pasha, the Turkish grand vizier and minister of war, was shot and killed by assassins. His aide-de-camp, Lieutenant Ibrahim Bey, also was killed.

Christiania—The storking has unanimously agreed to extend female suffrage so that all women will have a right to vote at parliamentary elections without regard to their income tax.

Chicago—The Quaker Oats company—the so-called oatmeal trust—controlling 90 per cent of the oatmeal products and by-products of the country, is attacked by the government in a suit filed here.

Springfield, Ill.—The woman's suffrage bill passed the house here, 81 to 58. It already has been passed by the senate, and now goes to the governor for his signature.

Valparaiso—During 1912 the United States supplied 60,813,000 feet of lumber for the markets of Chile, of which the greater portion was Oregon pine, practically all of which came here in American sailing vessels.

Manila—Determined to crush once and for all the rebellious Moros, who, under the Sultan of Jolo, are entrenched at Bagasak, Brigadier General Pershing, commander of Mindanao, is moving against the outlaws.

New York—A party of 300 prominent American engineers, members of the American Society of Mechanical Engineers, with their wives, sailed from New York on the steamship Victoria Louise for an extended trip through Germany.

Washington—Durum wheat production in the United States last year was again normal at 40,000,000 bushels. The flour therefrom has been mainly used for macaroni, but increasing amounts are blended with softer wheat flour for baking.

Chicago—This city is the greatest receiving market for lumber in the nation, according to the report of a committee of the Association of Commerce. The sales here last year were 2,642,650,000 feet, an increase of 20 per cent over 1911.

Bombay—Bharat grass grows in great quantities throughout India and extending into Afghanistan. It is extremely fibrous and strong, and as a paper pulp material now holds first place in India, where 50,000 tons are annually made into paper.

Washington—The United States supreme court has declared valid the law requiring all newspapers to publish statements of their circulation and ownership. Under the decision all newspaper reading notices must be labeled "advertisement."

Madrid—The commercial treaty replacing the recently expired treaty between Spain and Japan has been ratified by the senate. It expressly stipulates that Japanese may acquire land in Spain. The treaty already has been ratified by the chamber of deputies.

Berlin—Germany's common schools had over ten million students in 1911, but the increased attendance of one and one-third millions in the decade is surpassed by the increase in teachers. In 1901 there were to each teacher 60.9 pupils, and in 1911, 54.9 pupils, which is still considered high rates.

Washington—Ratification of a general working agreement with the Brotherhood of Locomotive Engineers was voted by the Brotherhood of Locomotive Firemen and Engineers in annual session here. Under the agreement the two organizations hereafter will work in harmony on all questions at issue between them and the railroads of the country.

Heads Civil Service Board  
Washington—John L. McIlhenny has been designated by President Wilson as president of the civil service commission. Mr. McIlhenny is the only one of the old commissioners retained.

Dredging Records Broken  
Panama—The record of the monthly dredging operations in the canal was broken in May when over 1,000,000 cubic yards of earth was removed from the two entrances.

## Movement to Eliminate Unethical Advertising

Baltimore—The ninth annual convention of the Associated Advertising Clubs of America finished its business Friday and adjourned to meet next year at Toronto. William Woodhead of San Francisco was installed as president; Walter B. Cherry of Syracuse, N. Y., vice-president; P. S. Flores of Indianapolis, secretary, and T. D. LaQuatte of Des Moines, Ia., treasurer.

The convention adopted unanimously "a declaration," submitted by the joint committee of departmental representatives, placing the association on record in opposition to all forms of unethical advertising and recommending measures designed to correct evils, wherever they occur.

A permanent commission composed of the constituent elements of the joint committee to deal in detail with problems existing in the fields of advertising, is proposed. Every advertising interest is urged to submit problems regarding questionable advertising to this commission and to the national vigilance committee.

"We believe in truth," the declaration continues, "not only in the printed word, but in every phase of business connected with the creation, publication and dissemination of advertising."

"Government agencies insist on 'full weight' packages and 'full weight' circulation figures. They should also insist on 'full weight' delivery in every commercial transaction involved in advertising."

The formation of a retailers' advertising association, with Manly M. Gilliam of New York as president, was announced. The new organization is to be an associate body of the national association.

## Senate Committee Accepts Wool and Sugar Schedules

Washington—Free sugar in three years and free wool, the most troublesome schedules of the tariff confronting the party, advanced another stage Thursday without suffering alteration, when the Democratic members of the finance committee approved them as they passed the house. These schedules are now up to the Democratic caucus.

The caucus vote on sugar and wool will end all controversy as to whether resident Wilson's tariff policy is to receive the party support. The party leaders do not anticipate now that more than three senators will refuse to support the schedules, and if there are no more losses than that the bill can be passed with the vote of the vice-president.

Republican leaders in the senate are preparing for their fight against the Democratic tariff bill now being rounded into shape for debate.

Senator Penrose, Republican member of the finance committee, is to lead the opposition on the floor after the bill is reported. Senator Smith of Michigan is to lead the fight against the sugar schedule, and Senator Smoot will command the anti-free wool debate.

Senator La Follette, who has amendments which amount practically to a new bill, plans to make a speech that will extend over a week. The minority members of the finance committee are already at work on their report.

## Commerce Commission Calling for Experts

Washington—With the gigantic task ahead of it of appraising the physical property of the railroads of the United States, the interstate commerce commission has sent out an appeal for expert assistants. Through the civil service commission dates have been set for the examination of men acquainted with railroad operation and construction and who aspire to enter the service of the government.

The interstate commerce commission wants a large staff of structural, electrical, mechanical, railway signal and civil engineers; inspectors of car equipment and motive power, and architects. The salaries will range from \$1080, the lowest, to \$4800, but as the work will be mainly done away from Washington expenses will be allowed while on duty.

The civil service commission expects a general response to its call, and has fixed July 21 as the closing date on which applications will be received by it.

## U. S. Supreme Court Again Upholds State Rail Rates

Washington, June 17.—Validity of the 2-cent passenger laws and maximum freight rates in Missouri, West Virginia and Arkansas were upheld by the supreme court today in another series of decisions in the noted state rate cases. No decision was announced in the Kentucky case. In the Missouri case the great majority of rates contested by the railroads as confiscatory were held valid. State freight rates established in Oregon also were approved.

At 2:15 o'clock the supreme court adjourned until next October without announcing a decision in the intermountain rate cases or passing on an application for a review of the Gompers-Mitchell-Morrison contempt of court case.

## Caterpillar Enemy Imported

Sacramento—A green beetle, a native of Italy, and known as the californica, has been imported into California to fight the caterpillars that are injuring the citrus trees. Thirty beetles have been received from Massachusetts by State Insectarian Smith, and will be bred in great numbers and then liberated among the caterpillar infested orchards.

## GOVERNOR PUTS O. K. ON 700 BILLS

### Clears Up Big Batch of Legislative Measures—Teachers' Pension Saved

\$13,302,000 State Appropriations Cut to \$12,999,660 After Considering All Needs

Sacramento, June 17.—Governor Johnson completed last night the signing of 700 bills passed to him by the legislature for his approval, about 700 bills receiving his signature, and these will be chaptered in the 1913 statutes. Nearly all take effect August 10. A large number of bills were pocketed.

Shortly before midnight he signed the teachers' pension bill, the measure advocated so strongly by teachers of San Francisco, Oakland and Alameda.

The general appropriation bill was one of the last signed. The total amount setting aside funds for the maintenance of the state government during the next fiscal year was \$13,302,000, but Governor freely exercised the power given to him to veto individual items and cut it to \$12,999,660.

In so doing seventeen items were eliminated.

There was a raft of special appropriation bills, but these were pruned more than 50 per cent, with the result that the final total is in the neighborhood of \$4,900,000.

The general effect of the appropriation bills will be to modernize the state institutions, along with other reforms. The University of California fares exceedingly well in the final outcome of the bill signing period, receiving special-general appropriations, including the 2-cent tax, of approximately \$3,360,000.

The appropriations for the University of California have a particular bearing in relation to the farmers and the citrus fruit growers, as there is included in the general appropriations \$700,000 for the support of the agricultural department and a special appropriation of \$135,000 to help the citrus fruit growers in the south.

The total of the 1913 general appropriation and special appropriation bills marks an increase over the bills signed in 1911, which aggregated approximately \$11,000,000 for general appropriations. The increase in the total of general and special appropriation bills signed by Governor Johnson for the two legislative sessions of his term is 15.7 per cent, as compared with 20.7 per cent of the largest increase of any previous administration.

In addition to the act raising corporation rates, the red light abatement measure and the alien land law, the leading bills passed by the legislature and approved by Governor Johnson are as follows:

Workers' compensation, mothers' pension, rural credits, weights and measures, minimum wage commission, immigration commission, blue sky law, new election laws, including non-party county elections; state civil service, state water commission, anti-discriminatory practices, motor vehicle act, net container bill, direct election of United States senators, Avery medical bill, oil pipe lines, eight-hour law for nurses and miners, legislative council bureau, re-organization state board of education, regulation of employment agencies, spite fence bill, Roberts anti-destruction of food stuffs bill, state viticultural commission, two to six salmon closing, full train crew bill, lengthening hours for voting, tenement regulation, Vallejo ferry franchise, Alaska fisheries bill, non-sale of ducks in November and reduction of bag limit, raising age of consent, irrigation bills, indemnity for persons unjustly convicted, health bills, reclamation bills, trainmen's electric headlight, anti-blacklisting, grange insurance, increasing powers of San Francisco harbor commission, woman's rights bill, California Redwood Park and other state highways.

## Would Prohibit the Slaughter of Calves

Washington—Convinced that the high price of meats could be effectively and sharply reduced through the enactment of a law prohibiting the slaughtering of calves, the chamber of commerce has announced its intention to appeal to congress for some such legislation. Eminent physicians all over the country will be asked to testify as to the unwholesomeness of veal as food and their testimony will be submitted to congress, when the crusade is launched.

Argentina, the chamber points out, has a law which prohibits the killing of a male calf until it is three years old and a female until it has reached six years. Leaders in the movement contend that the slaughter of calves in the United States has not only raised the price of meats, but it is threatening its standing as a meat producing country.

## Roosevelt to Lecture In Argentine Republic

Buenos Ayres—It is announced here that Theodore Roosevelt is coming to Argentina to lecture on the progress of the United States.

New York—Colonel Roosevelt's private secretary has confirmed the report that the colonel contemplates a trip to Argentina, but added that the details had not been settled. Present plans call for his departure this fall.

## Moros Are Routed in Fierce Battle at Bagsak

Manila—Fierce fighting continues between the American forces under Brigadier General Pershing and the rebellious Moros at Bagsak.

The Moros still hold one fort. Their attempts to rush the American lines with bolos, which are made with fanatical gallantry, have been repulsed with heavy losses. The Americans will attack in strength, and their success seems certain.

The latest casualties are one scout killed and one man of the hospital corps wounded.

Washington—"Probably no fiercer battle since American occupation," is the description by Brigadier General Pershing of the battle with the Moros at Bagsak, in his report by cable to the war department.

The Moros made desperate attempts to rush the American lines, but were finally beaten back and overwhelmed. Their leader, Amil, and several other noted outlaws were reported killed, but the total loss of the Moros is not known.

One American officer, Captain Taylor A. Nichols of the Philippine Scouts, was killed; First Lieutenant Elwin H. Rackley, Philippine Scouts of the Fifty-first company, all natives, were killed.

Captain Taylor A. Nichols of the Philippine Scouts, who was killed in the fight at Bagsak, is a native of Redding, Cal., and served as a private, corporal and sergeant in Company E, United States Signal Corps, from July, 1900, until March, 1906, when he was commissioned first lieutenant of the scouts. He was promoted to the grade of captain in that organization in March, 1912.

## Kansas Finds Way to Cheat Garbage Can

Topeka, Kan.—Through teaching domestic science and economy in the home, Kansas gained \$1,000,000 last year, and the amount will be increased at a rate of \$500,000 a year until practically there will be no waste food in the entire Sunflower state. That is the aim of the agricultural college, and the state is spending \$40,000 a year to help in cheating the garbage can.

Seven hundred girls completed the domestic science course at the agricultural college last week, and the college has just closed its movable cooking schools, which were attended by 11,000 women during the ten weeks which they operated.

Kansas decided two years ago that the way to cut the high cost of living was to stop much of the waste that goes out of the kitchen doors and into the garbage can. One of the plans was movable cooking schools, and the other was high school domestic science work.

## Lane Recommends Drainage Measure

Washington—Secretary Lane has submitted a recommendation to congress for a law authorizing the drainage and reclamation by the United States of public swamp and overflowed lands in any state or territory.

While the proposed measure is designed primarily for the reclamation of public lands, it authorizes the inclusion in the drainage projects, under specified conditions, of state or privately owned swamp land contiguous to the public land or located in the same drainage basin.

The measure is comprehensive and in some degree analogous to the reclamation act passed in 1902 for the irrigation of arid lands. It includes, however, several improvements on that act, suggested by experience in the administration of the law.

Secretary Lane said that the enactment of the measure into law would be "a notable step in the reclamation of public lands and in the establishment of homes and farms on areas now uninhabitable and worthless."

## Indicted San Francisco Policemen Plead Guilty

San Francisco, June 17.—Six of the eight policemen indicted recently on a charge of conspiracy in connection with the operations of the \$300,000 Italian bunco ring, pleaded guilty in the superior court before Judge Lawlor, and were sentenced to nine months each in the county jail.

The six who pleaded guilty are Joseph L. Droulette, John H. Sullivan, William McHugh, Charles Joseph, James McGowan and Frank W. Eola.

At its next meeting the police commission will dishonorably discharge the policemen just sentenced. Eola is already under five years penitentiary sentence, on account of his conviction last week.

McPhee and Taylor the remaining two of the eight policemen indicted refused to plead guilty and are now on trial.

## New Alloy to Replace Platinum

Berlin—At a session of the Rhenish Institute for Scientific Investigation, the metallurgical professor, Borchers, announced the discovery at the Aix la Chapelle laboratories of a new alloy equal to platinum, which would resist the strongest acids. The discovery was important, he said, as platinum was constantly becoming dearer.

## Restores Nevada Lands

Washington—President Wilson has signed an order of restoration to the public domain of a large body of coal lands in Nevada, near Tonopah and Goldfield. More than 7000 acres are involved.

## SENATORIAL FRANKS AND SUGAR

### Lobby Investigation Shows How Public Documents Were Circulated

Representative of Beet Men on the Stand All Day—Uncle Sam Did Printing

Washington—How the government printing office and the postoffice department helped in the fight against free sugar and the congressional frank sent tons of anti-free sugar literature circulating throughout the land, was brought out by the senate lobby investigation.

Truman G. Palmer, Washington representative of the United States sugar industry, was on the stand an entire day, and the subject of a sweeping cross-examination, and testified that more than 1,500,000 copies of arguments in behalf of beet sugar had been turned out by the government printing office, made public documents by order of congress, and had ridden on the franks of senators and representatives to the ends of the country, postage free.

"Sugar at a Glance," prepared by him, he said, had attained a circulation of 320,000 copies under the frank of Senator Lodge. "Report of the Finance Committee," by the same senator, had beaten the pamphlet by 80,000 copies.

The franks of Senator Smoot, former Senators Curtis and Dick, the late Representative Malby, former Representative Pickett and Representative Martin had swollen the total to more than 1,500,000. The printing of some of this number had been paid by the beet sugar people, the witness said, but the free postage had saved them about \$25,000.

Mr. Palmer intimated that "Sugar at a Glance," which he intimated was inspired by the Federal Sugar Refining company, and which was an argument in behalf of free sugar, also had been printed as a public document and circulated under the franking privileges. He did not say, nor did the committee ask, whose frank was so used.

Palmer said that the beet men had spent about \$160,000 in their campaign against free sugar since 1902. About \$50,000 had been used since last November and about \$14,000 of that amount since the beginning of the present congressional session. Much of it had been spent in "publicity work," in printing, salaries and a good sized sum in motion pictures. He said the beet producers in his association were assessed about 5 cents per ton, he thought. The last assessment was made in April, bringing in about \$18,000 and the previous one in February, about \$17,000 he said.

"When did you make those assessments?" asked Senator Reed.

"When we needed the money."

Much of the time was spent by the committee in trying to find out all the details of how "Sugar at a Glance" came to be printed as a public document. Although Palmer was grilled for three hours on practically nothing else, when he left the stand committee men said they were about as much in the dark as they were when the pamphlet was first mentioned.

## Rules Issued for C. O. D. Business by Parcel Post

Washington—Instructions to postmasters have been issued for the handling of C. O. D. parcel post packages. The regulations will be effective July 1.

Charges on packages will be collected from addressees on and after that date, provided the amount on a single package does not exceed \$100. The fee for collection will be ten cents in parcel post stamps, to be affixed by the sender. This fee also will insure the package against loss to the actual value of the contents not exceeding \$50.

The sender will get a receipt showing the amount to be collected the amount also appearing on a tag attached to the package. The addressee will receive for the package on the tag which will serve as an application for a money order. C. O. D. parcels may be accepted for mailing by rural carriers, and will be delivered by city and rural carriers and special delivery messengers. Such packages will not be mailed either to the Philippines or to the canal zone.

## Servia and Bulgaria Accept Arbitration Plan

St. Petersburg—The Servian and Bulgarian governments have both agreed to accept Russian arbitration in their dispute over the territory acquired during the Balkan war.

Belgrade, Servia—The Servian government has sent a note to the Bulgarian government proposing that three-fourths of the armies of Bulgaria and Servia be demobilized to relieve the existing tension and to facilitate a settlement of the difficulties between the two governments.

After International Farmer's Congress Ghent, Belgium—At the closing meeting of the tenth international congress of agriculture, the American delegate, Dr. Alfred C. True of Washington, proposed that the next congress in 1915 should be held at San Francisco. An international commission will consider the question and decide whether the proposition is to be accepted.

## THE TERMINAL

ISSUED EVERY FRIDAY  
Published in 1907  
Legal City and County Paper

TERMS OF SUBSCRIPTION:  
One year, in advance \$7.00  
Six months, in advance \$4.00  
Advertising rates on application

Entered as SECOND-CLASS MATTER June 12, 1901 at RICHMOND, CALIFORNIA, under the ACT of CONGRESS of March 3, 1879.  
Legal notices must be paid for on or before delivery of a habit of publication. No exception to this rule.

The Standard Oil beats the Dutch.

Fourth of July falls on Friday, but not the 13th.

Secretary Bryan carries a lunch basket, just like any "ordinary hired man."

Theodore Roosevelt will lecture throughout South America. Teddy "should worry."

Henry George Jr., from the 21st New York district took the oath of congressman Tuesday.

The fare to Los Angeles, round trip via steamer, is \$8.00. But who wants to go to a hot climate?

Los Angeles has 153 school houses and 2990 teachers. The monthly pay roll totals \$217,500.

Not so soft for fishermen. You must now have a license, besides bait, care and cure for sunburn.

Monday the thermometer in Chicago registered 98, a record breaker for June. The same day in Detroit the temperature was 104.

There are 425 Gettysburg veterans in California. The 50th anniversary of the memorable battle occurs at Gettysburg this year.

Secretary of the Navy Daniels is to tour the Pacific Coast next month. He will visit Richmond and inspect the proposed naval project.

The price of gasoline has not slumped yet. In fact, the market price per gal. may stiffen slightly now that John D. has purchased the largest automobile manufacturing plant in the world.

The man who pulled a loaded shotgun through a barbed wire fence "wrong end to," has quit trying it. He found that outgoing birdshot are less effective than incoming, when backed up by high explosive powder.

The new law prohibits the destruction of foodstuffs to maintain increase in market prices. No more spuds can be dumped into the bay. No more fish for the glue factory. They must be sold to the consumer at reduced prices. (But will they?)

The Railroad Commission has rendered a decision that water companies must bear the expense of service connections and meters. The commission holds that the water companies cannot require their consumers to provide a portion of the company's investment, represented by service connections and meters.

Ben F. Wilson, the gifted speaker, who appeared in Pythian Castle Friday night, made many convincing points, and although his audience was not composed entirely of socialists, his philosophy was of a variety that set many to thinking. Mr. Wilson is a brother of Stitt Wilson, mayor of Berkeley. He is touring the coast, and may speak again in Richmond before leaving for his home in the middle states.

Guided by powerful searchlights in a cone of rays through fog in Golden Gate the gunners of the Sixty-fifth Company Coast Artillery Corps executed six shots out of ten at a distance of 5000 yards against targets appearing no larger than saucers showing for an instant in the moving circle of light.

### THE TERMINAL ENDORSED.

The Terminal is receiving the exclusive support of the Building Trades Council and also the Central Labor Council. This means the 3000 or more organized workers of Richmond have not forgotten the only newspaper in Richmond that supported them in the late city election and was an important factor in winning their fight. Keep your eye on the Terminal.

### COL. REES' HARBOR PLANS.

Mayor Mott and Commissioner Anderson offer an amendment to Colonel Rees' harbor plans. It is claimed that the bay traffic would be seriously obstructed in the vicinity of the Key Route basin and pier. Messrs. Anderson and Mott are the only "obstructionists" who have appeared on the horizon so far. They are not engineers. Col. Rees has made his profession a life study and is recognized authority. His greater harbor plans for the east bay cities are unanimously endorsed. Liverpool, with twenty times the shipping, is accommodated by a channel less than one third the width of the channel proposed by Colonel Rees. The Key Route, or any other corporation's temporary inconvenience, should not be considered where the interests of the people of a commonwealth of such proportions as that of the bay cities is involved. Col. Rees' harbor plan is the result of careful study. His reputation is well known. His ambition is to give the people (who employ him) the very best. He will surely make good if no obstruction is thrown in his way.

### BOOSTERETTES.

More buildings for Richmond.

James Goodchild, a tourist from London, was in Richmond this morning. He is closing a deal for a Macdonald avenue corner.

Awaiting the action of the manager from New York, the search for a big theatre site at Third and Macdonald is postponed to August.

The big hotel project for Richmond near 16th and Macdonald was discussed by eastern capitalists at the Palace, San Francisco, yesterday.

Mrs. J. M. Riddle and daughter, Miss Riddle, are visitors at a downtown hotel in Richmond and are looking for investments. Their home is at New Orleans.

A. M. Bray of San Diego accompanied by his wife and daughter, were in Richmond yesterday. Mr. Bray is looking for inside property near Macdonald avenue and Sixth street.

Another banking institution will soon open its doors in Richmond, according to reports in financial circles. Richmond, a city of 15,000, a manufacturing center, has three banks. Many towns of Richmond's size have six or more banks.

# DISCOUNTING ALL LINES AND SETS OF FURNITURE

25 to 50 per cent

This does not mean that we are forcing out a lot of inferior or out-of-date furniture, but we are stocked too heavily to accommodate the new shipments the reorganization demanded. We stand ready to guarantee all of our goods in every way.
